11th Annual Congress of the Lebanese Society of CRITICAL CARE MEDICINE

March 10 - 11, 2018 | Metropolitan Hotel, Beirut - Lebanon

WELCOME LETTER

Dear Colleagues,

On behalf of the Lebanese Society of Critical Care Medicine we would like to welcome you to the 11th edition of our annual meeting.

Based on popular demand, we organized a hands-on pre-congress ultrasound course for beginners and more advanced critical care physicians.

The congress starts with a session tackling hot issues in critical care nutrition. It is followed by the opening session which leads to what we trust to be the highlight of the congress: the medico-legal session. A round table discussion will address the issues every doctor in our country faces today; and especially critical care doctors. It will debate the current state of the laws governing medical error whereby physicians face criminal rather than civil or specialized courts in cases of litigation. It will also address the role of the LOP and how it can be more proactive and the pivotal role of the media. We shall have a superb panel to address this pressing issue composed of the President of the LOP Professor Raymond Sayegh alongside deputies from the Lebanese Parliament and eminent figures from the judicial and media fields. In the ICU, patient outcomes are never guaranteed and mortality is high, we intensivists should be practicing sound, up to date medicine, rather than constantly worry about litigation. We are confident you will enjoy the other topics covered in the congress: heart failure, namely right sided, organ maintenance and donation in the case of brain death, emerging resistant infections and the increasing need for antibiotic stewardship. We also dedicate a session that tackles delicate ethical situations that face critical care nurses and doctors in end of life situations.

We are again pleased to welcome our nutritionist colleagues and partners as in previous editions of the congress.

We are excited about our proposed program and are looking forward to seeing you at our congress. We encourage each one of you to attend and meet other members. This meeting will only succeed with your presence and active participation.

Georges Juvelekian
President of the Scientific Committee

Georges Dabar
President of the congress

Lebanese Society of
CRITICAL CARE MEDICINE

11th Annual Congress of the Lebanese Society of CRITICAL CARE MEDICINE

March 10 - 11, 2018 | Metropolitan Hotel, Beirut - Lebanon

COMMITTEES
