Welcome Letter

It is our pleasure to welcome you to our 4th medico surgical congress held on 13th of April

On that date in 1983, Sahel General Hospital was born and joined the health care system in Lebanon
Dr. Fakhry Alame, the founder, chose this date, to launch the dream of his life and to prove that when there is a will, there is way .

I still remember the day my father performed his first surgery on April 13th - I will never forget the smile on his face

His Scientific passion led him to host the faculty of medicine - Lebanese University in 1985 at Sahel General Hospital

Our congress is the proof of his beliefs in continuous medical education and it will cover the management of diabetic foot complications , management of cardiac heart failure, PCI and role of PET/CT in the diagnosis of cancers

Finally I would like to thank all the pharmaceutical companies for sponsoring and supporting this event

Your presence is highly appreciated

Dr. Walid Fakhry
Medical Director
Sahel General Hospital

Walid Alame ,M.D

President of the Congress

Saturday, April 13, 2019
