NOVEMBER 02 - 03, 2018 | Phoenicia Hotel, Beirut - Lebanon

WELCOME LETTER

Dear Friends and Colleagues,

It is with great pleasure and anticipation that the Lebanese Society of Oto-Rhino-Laryngology and Head and Neck Surgery extends a cordial welcome to its 23rd Annual Congress that will be held on November 2-3, 2018 at Phoenicia Hotel in Beirut, Lebanon.

This exceptional event will be held in the magical and vibrant city of Beirut bringing updated insight into the latest and most efficient techniques in our field.

This Congress will offer a unique model of a large-scale academic event dedicated to teaching and training in Head and Neck Surgery, Facial Plastic and Reconstructive Surgery, Otolaryngology and Neurology; It will provide a challenging scientific program in the form of keynote lectures, scientific sessions, symposia and a huge exhibition. It is expected to attract substantial attendance with prominent experts

from Canada, USA, Europe and the region.

The scientific sessions will be richer than ever. The Facial Plastic surgery sessions will deal with different surgical and non-surgical aspects of facial rejuvenation and remodeling. Training workshops will be dedicated to Otoplasty, fillers and neuromodulators. Otolaryngology sessions will discuss the latest advancements in the field of cochlear and middle ear implants and pathology.

This year we will dedicate a full day to cover the most interesting topics as related to Head & Neck Oncology and Surgery with pioneers in the field delivering comprehensive lectures that will cover simple and advanced operative techniques in addition to updates on innovative, controversial and difficult topics.

I would like to acknowledge the effort and hard work of the scientific committee chaired by Dr. Roger Moukarbel for putting together this year's excellent and comprehensive program.

The Phoenicia Hotel Beirut is a historic 5-star luxury hotel overlooking Beirut Marina, located at a walking-distance from Beirut historical Central District.

For Fans of historical sites, Lebanon offers an unparalleled Phoenician, Roman and Arabic Heritage spread over the entire country.

We promise you unforgettable days in our beautiful city and we thank you for helping us shape the future of our Society in the field of OtoRhinoLaryngology, Head and Neck Surgery and Facial Plastic and Reconstructive Surgery.

Looking forward to welcoming you in Beirut!
