Lebanese Society of General Practice

18th NATIONAL CONGRESS

HOT TOPICS IN GENERAL PRACTICE

This year the 18th Congress of the Lebanese Society of General Practice comes with unprecedented and unpleasant events for our country.

Our society had a vision to start Webinars to outreach the society members and friends in remote areas which was preceded by six months of technical preparations to launch our first Webinar in "SAWA Program" eleven months ago. It was a pioneer program with attendees exceeding 350 physicians per webinar and going beyond Lebanese borders to the near by Arab countries and North Africa. It was followed by "VIP" and "NOVA" programs in addition to other medical Webinars.

The 18th National Congress was set to take place on the 28th of March 2020 with all the preparations done but unfortunately it was postponed at the last moment because of the n-Covid 19 lock down.

Our belief in continuous medical education encourages us to continue our mission by making it on line for safety reasons and easier accessibility. Wishing all the participants a fruitful day full of medical scientific content.

A handwritten signature in blue ink, appearing to read "Habib Hazkial", written in a cursive style.

Habib Hazkial M.D.
President of the L.S.G.P.
