THE 32nd ANNUAL MEETING OF THE

LEBANESE OPHTHALMOLOGICAL SOCIETY LOS 2026

PROGRAM

25-26 | SEPTEMBER
2026

📍 InterContinental Phoenicia Hotel, Beirut - Lebanon

THE 32nd ANNUAL MEETING OF THE LEBANESE OPHTHALMOLOGICAL SOCIETY LOS 2026

WORD OF WELCOME

Dear Colleagues, Friends, and Honored Guests,

It is with great joy and pride that we welcome you to the 32nd Annual Congress of the Lebanese Ophthalmological Society, taking place on the 25th and 26th of September 2026, in our vibrant and resilient city of Beirut.

This year's meeting brings together an exceptional community of ophthalmologists, researchers, educators, and innovators from Lebanon, the region, and across the globe. We are especially honored to host many internationally renowned faculty alongside our distinguished local experts, united by a shared mission to push the frontiers of excellence in eye care.

We are particularly proud this year to host a dedicated session co-organized with the Rothschild Foundation in Paris. This focused half-day collaboration will spotlight the latest innovations in anterior segment diagnostics and refractive surgery, offering deep insights into cutting-edge techniques directly from one of the world's leading institutions.

A highlight of the meeting is the Aleph Award and keynote lecture, the Society's highest honor.

Throughout the two-day program, participants will experience a vibrant mix of sessions covering retina, glaucoma, premium and complex cataract surgery, pediatric ophthalmology, refractive surgery, potpourri sessions, and dynamic video panel discussions.

THE 32nd ANNUAL MEETING OF THE LEBANESE OPHTHALMOLOGICAL SOCIETY LOS 2026

We are also excited to introduce the first-ever LOS Live Podcast, featuring conversations with leading speakers and key industry partners. These recorded episodes will distill the most impactful pearls, showcase emerging innovations, and capture the energy of the meeting, making the spirit of LOS 2026 accessible long after the congress concludes.

None of this would be possible without the unwavering dedication of our scientific and organizing committee members, the invaluable contribution of our international and local speakers, and the generous support of our sponsors and industry partners, whose collaboration enables a meeting of this scale and significance. We deeply thank you for your ongoing commitment.

We look forward to two days of shared ideas, meaningful discussions, and the kind of connection that propels our field forward.

Sincerely,

Shady Awwad, MD
President & Chairman
of the Congress

Hassan Chahine, MD
Chairman of the
Organizing Committee

Mohamad Hour, MD
Secretary, Lebanese
Ophthalmological Society

A handwritten signature in dark ink, appearing to read 'S. Awwad'.

THE 32nd ANNUAL MEETING OF THE LEBANESE OPHTHALMOLOGICAL SOCIETY LOS 2026

AHMED ASSAF, MD

Dr. Ahmed Assaf is a Professor of Ophthalmology at Ain Shams University and a consultant in phaco-refractive surgery at Al-Watany Eye Hospital, Cairo. He specializes in cataract surgery with premium IOLs and Femtosecond laser technology, which comprises 30% of his surgical volume. He has won multiple international awards, including best paper at ASCRS 2017 and best video and case awards in Milano (2019, 2022), IIRSI Chennai (2022), and ASCRS 2025. In 2023, he received the prestigious Kelman Lecture Award. In 2024, he became the first non-European FEBOS-CR Fellow and won the Ophthalmic Premiere League at the AAO meeting.

AHMAD MUNEER OTRI, MD

Professor Ahmad Muneer Otri is currently serving as a Senior Consultant in Ophthalmology at The View Hospital in Qatar. He specializes in Glaucoma and Cataract surgeries and has been in the field since 2002, with extensive medical and surgical training in the UK. He is also a Clinical Professor in Surgery at Qatar University. Previous posts and experience: Consultant Ophthalmologist at Coventry University hospital, UK between 2019 and 2024. Surgical Fellowship in Glaucoma and Cataract Surgery, Queens Medical Centre, Nottingham, UK Clinical Research Fellowship in Cornea and Anterior Segment at Queens Medical Center, Nottingham, UK Clinical fellowship in Oculoplastic in Birmingham eye center, Birmingham, UK Fellow of the Royal College of Ophthalmologists in London (FRCOphth), UK Fellow of the Royal College of Surgeons in Glasgow (FRCS), UK PhD in Ophthalmology, University of Nottingham, UK.

THE 32nd ANNUAL MEETING OF THE
LEBANESE
OPHTHALMOLOGICAL SOCIETY
LOS 2026

ALAIN SAAD, MD

Dr. Alain Saad is Vice Chair at Rothschild Foundation Hospital in Paris and Deputy Medical Director at Centre de l'Oeil in Switzerland. A board member of SAFIR, he is also on the editorial board of the Journal of Refractive Surgery and has published over 75 peer-reviewed articles. With Damien Gatinel, he co-developed the AI-based ectasia detection tool "SCORE" and contributed to the PEARL IOL calculation formula. Recognized internationally, he was ranked #10 in The Ophthalmologist's "Top 40 Under 40" (2015), and listed among France's top ophthalmologists by Le Point (2023) and The Ophthalmologist (2024).

AMMAR SAFAR, MD

Dr. Ammar Safar is an American Board-Certified Ophthalmologist and Vitreoretinal Surgeon, currently serving as Chief Medical Officer of Moorfields Eye Hospitals UAE and Adjunct Professor of Ophthalmology at Mohammed Bin Rashid University. He completed his ophthalmology training at Georgetown University and a two-year fellowship in Vitreoretinal Diseases and Surgery at UT Southwestern Medical Center. He previously served as Associate Professor and Director of Vitreoretinal Surgery at the University of Arkansas for Medical Sciences. His clinical and research expertise includes diabetic retinopathy, retinal vascular diseases, and age-related macular degeneration.

THE 32nd ANNUAL MEETING OF THE
LEBANESE
OPHTHALMOLOGICAL SOCIETY
LOS 2026

AVINASH GURBAXANI, MD

Dr. Avinash Gurbaxani is a Consultant Ophthalmologist at Moorfields Eye Hospital Dubai, specializing in Uveitis, Medical Retina, and Cataract Surgery. He trained in ophthalmology in Oxford and London and completed advanced fellowships in Uveitis and Medical Retina at Moorfields Eye Hospital London and Sydney Eye Hospital, Australia. He has extensive expertise in managing complex inflammatory and retinal eye diseases, as well as associated cataract cases. Dr. Gurbaxani is actively involved in clinical research and has presented and published his work at numerous national and international conferences.

CARL-JOE MEHANNA, MD

Dr. Carl-Joe Mehanna is an ophthalmologist with a particular clinical and research interest in retina, macular diseases, retinal imaging, and optical coherence tomography (OCT). He completed his medical education and ophthalmology residency at the American University of Beirut, where he was also actively involved in ophthalmic research. He subsequently pursued advanced fellowship training in retina at the Centre Hospitalier Intercommunal de Créteil in France. Dr. Mehanna has authored and co-authored numerous scientific publications covering retinal diseases, diabetic retinopathy, macular degeneration, and ophthalmic imaging.

THE 32nd ANNUAL MEETING OF THE
LEBANESE
OPHTHALMOLOGICAL SOCIETY
LOS 2026

CHRISTOPHE PANTHIER, MD

Dr. Christophe Panthier is an eye surgeon at the A. de Rothschild Ophthalmological Foundation in Paris, France. In addition to being a key member of the surgical team for this department, he also leads a working group dedicated to improving the practice of cataract surgery.

DAMIEN GATINEL, MD

Prof. Damien Gatinel is Head of the Anterior Segment and Refractive Surgery Department at the Rothschild Foundation Hospital in Paris and Associate Professor of Ophthalmology at the Abulcasis International University of Health Sciences in Rabat. Holding dual doctorates in medicine and applied mathematics, he is internationally recognized for translating advanced optical and mathematical modelling into clinical practice.

He designed the optical profile of the first diffractive trifocal intraocular lens and is co-conceptor of the open-source PEARL-DGS intraocular lens power calculation formula. His innovations also include the SCORE Analyzer for detecting subclinical keratoconus, the Gatinel-Malet polynomials, vergence-based wavefront expansions expressed in diopters, and the “no rub, no cone” hypothesis on the role of eye rubbing in keratoconus. His current research includes AIOLsci, a platform for patient-specific simulation of intraocular lens optical performance before implantation, and Project GRACE, which introduces individualized quantification of refractive uncertainty in intraocular lens power calculation.

THE 32nd ANNUAL MEETING OF THE
**LEBANESE
OPHTHALMOLOGICAL SOCIETY**
LOS 2026

HAYTHAM SALT, MD

After finishing fellowships in Retina at the University of Virginia and Harvard Medical School in the USA, Dr. Salti joined the American University of Beirut Medical Center to assume the position of assistant professor of Ophthalmology in 2003. From 2018 until 2022, he was head of the retina division at the department.

In September 2022 he joined Cleveland Clinic Foundation working at the Abu Dhabi campus. He currently holds the position of Clinical Professor of Ophthalmology at the Lerner College of Medicine, Case Western Reserve University at Cleveland Ohio. His main interests are retinal vascular diseases, retinal imaging and phacoemulsification in patients with retinal pathologies.

MAZEN SINJAB, MD

Prof. Sinjab is an internationally recognized ophthalmic surgeon with expertise in cornea, anterior segment, and refractive surgery. He holds multiple prestigious qualifications including MD, PhD, FRCOphth (London), and CertLRS (London). Based at Dr. Sulaiman Al Habib Hospital in Dubai, he is also the Founder and President of Sinjab Academic Consultancy (UAE), President of MEACRS, and Chief Co-Founder and Honorary General Secretary of the International Keratoconus Society.

Prof. Sinjab serves as a board examiner for both the Royal College of Surgeons of Edinburgh (FRCSEd) and the Royal College of Ophthalmologists (London).

THE 32nd ANNUAL MEETING OF THE
LEBANESE
OPHTHALMOLOGICAL SOCIETY
LOS 2026

MILTOS BALIDIS, MD

Consultant ophthalmologist specializing in cornea, cataract and refractive surgery, with advanced training in London and fellowship at Moorfields Eye Hospital.

Former Postdoctoral Cornea Consultant at Aristotle University of Thessaloniki and Scientific Chief of the Eye Department at Interbalkan Medical Centre of Northern Greece. Co-founder of IRIS Laser Centers and Protypo Eye Center. Currently Director and Co-Founder of Ophthalmica Eye Institute, the first multidisciplinary eye clinic in Thessaloniki, Greece.

Leadership roles include President of the Hellenic Society of Intraocular Implants & Refractive Surgery (HSIOIRS), President of the South East Europe Cataract & Refractive Society, and Greece Representative to the ISRS International Council.

MOHAMED HOSNY, MD

Dr. Hosny is a Professor of Ophthalmology at Cairo University and a leading Cornea and Refractive Surgery Consultant at Dar El Oyoum Specialized Eye Hospitals, Egypt. He holds an FRCS from the Royal College of Surgeons of Edinburgh and completed advanced training in refractive and anterior segment surgery at the University of Alicante, Spain. He has contributed to numerous international publications and ophthalmology textbooks. A regular presenter at ASCRS and ESCRS for over 20 years, he has also served as a panelist, session co-chair, and Arab Board of Ophthalmology examiner.

THE 32nd ANNUAL MEETING OF THE
LEBANESE
OPHTHALMOLOGICAL SOCIETY
LOS 2026

MOHAMED TAWFIK, MD

Dr. Mohamed Tawfik is a Consultant Vitreoretinal Surgeon from Egypt and CEO of Al Ferdaws Eye Center. He has a special interest in vitreoretinal surgery, surgical education, and ophthalmic training, and is actively involved in training the next generation of ophthalmologists.

Beyond his clinical and educational work, Dr. Tawfik has undertaken humanitarian ophthalmic missions to Gaza, where he volunteered as a vitreoretinal surgeon during the ongoing conflict, treating complex ocular trauma and performing sight-saving retinal surgery under exceptionally challenging conditions.

He is also a prominent ophthalmic educator and social-media voice, with a large online following, using digital platforms to share surgical education, clinical experience, and advocacy for eye care. His work combines vitreoretinal surgery, education, digital outreach, and humanitarian service.

NICOLE E. MECHLEB, MD

Dr. Nicole E. Mechleb is a corneal and refractive surgeon who completed her medical studies and ophthalmology specialization at the Université Saint-Joseph de Beyrouth. She subsequently completed an advanced clinical and research fellowship in corneal and refractive surgery within the department of Professor Damien Gatinel at the Fondation Adolphe de Rothschild in Paris, where she continues to practice.

She is a member of the faculty at the Université Saint-Joseph de Beyrouth and practices at Hôtel-Dieu de France and BESH Beirut. Her clinical and research interests focus on anterior segment reconstruction techniques, anterior lamellar and endothelial keratoplasty, refractive surgery, and anterior segment imaging, with a particular involvement in the development and evaluation of Corneal Allogenic Intrastromal Ring Segments (CAIRS) and ICL sizing optimisation.

Dr Mechleb has published in multiple peer-reviewed journals and regularly presents her work at international meetings including ESCRS, SFO, SAFIR, EPOMECE, and the AAO.

THE 32nd ANNUAL MEETING OF THE
LEBANESE
OPHTHALMOLOGICAL SOCIETY
LOS 2026

TAREK SHAARAWY, MD

Prof. Tarek M. Shaarawy is a chargé de cours at the University of Geneva and adjunct professor at the University of Arkansas. He practices at the Glaucoma Unit, Clinique de l'Oeil Geneva, and is the founding medical chairman of Swiss Vision Clinics. Previously, he headed the glaucoma division at the University of Geneva Hospitals from 2004 to 2024. He earned his medical degrees from the University of Cairo and University of Lausanne and completed glaucoma fellowships at Lausanne and Basel. Prof. Shaarawy is currently President of the International Society of Glaucoma Surgery and serves on the board of the World Glaucoma Association.

WASSIM GHAZAL, MD

Dr. Wassim Ghazal is an ophthalmic surgeon based at the Hôpital Fondation Adolphe de Rothschild and the Clinique Noémie de Rothschild in Paris. He trained at the Faculté de Médecine in Toulouse and Paris.

His clinical and surgical practice focuses on corneal disease and corneal transplantation (including DMEK), cataract and refractive surgery (laser and phakic ICLs). He routinely teaches and runs wet-labs and scientific presentations within the European Society of Refractive and Cataract Surgery (ESCRS) and Société Française d'ophtalmologie (SFO).

Dr. Ghazal is an active clinical researcher in Pr Damien Gatinel's department, and co-author on peer-reviewed ophthalmology papers addressing corneal imaging, corneal dystrophies and outcomes of DMEK, as well as AI OCT-based detection of corneal edema.

THE 32nd ANNUAL MEETING OF THE
LEBANESE
OPHTHALMOLOGICAL SOCIETY
LOS 2026

JOSEPH EL HOURANY, ARCHITECT & SCULPTOR

Joseph El Hourany lives and works in Lebanon. He is an architect (M.Arch. 1999) and urban planner (MS. 2005) and also holds a bachelors degree in philosophy (BA 2003) and musicology (BA 2007). Hourany has worked on many architectural and urban planning projects both in Lebanon and abroad and was elected as president of the 'Arab Architects Organization' in 2023. His doctoral research, completed in 2010 at the Massachusetts Institute of Technology (MIT) in cotutelle with the University of Quebec in Montreal, explored parametric architectural principles in the age of cybernetics. Hourany's sculptural and drawing practice develops organically alongside his architectural work and since 1999 he has participated in many exhibitions and art fairs. In 2021 Hourany held a solo exhibition Retrospective (1995-2020) at Saleh Barakat Gallery (Beirut). Group exhibitions and art fairs include ,Aley International Symposium of Sculpture (1999); La Centrale(2007, 2008, Montreal); Museum St-Hilaire (2008, Quebec); Stata Center (2009, Boston); ALBA(2011, Beirut); MENART (2022, Brussels, Paris); Art Dubai (2021; 2022; 2023; 2024); Abu Dhabi Art Fair (2021; 2022; 2023; 2024, UAE); Institut de Monde Arabe (2021, Paris).

Hourany has also published several works, including The Future Of The Pastwith John Carswell (2003); Specimen Zero (2010); Specimen One (2011); Guvder (2012) and Henri Edde Architecte Moderne(2019).
