IV INTERNATIONAL
AUTISM CONFERENCE
Abu Dhabi UAE

Abu Dhabi Energy Center
April 25-28, 2026

Under the Patronage of His Highness

**H.H. Sheikh Khalid
Bin Zayed Al Nahyan**

Advancing Autism Care Through AI and Innovation

The conference is held under the patronage of His Highness Sheikh Khalid bin Zayed Al Nahyan, Chairman of the Board of Trustees of Zayed Authority for People of Determination, with wide international participation from experts, specialists and decision-makers.

His vision emphasizes the critical role of innovation and artificial intelligence in enhancing services tailored for individuals with autism.

Hosting the IV International Autism Conference 2026 embodies the UAE's commitment to caring for all segments of society, especially people of determination, by promoting global cooperation, sharing knowledge, and exploring innovative ways to improve care and inclusion for children and adults with autism worldwide.

IV INTERNATIONAL
AUTISM CONFERENCE
Abu Dhabi UAE

Abu Dhabi Energy Center
April 25-28, 2026

Organizers

Welcome Letter

Dear Valuable Participants,

We are delighted to welcome you to the Fourth International Autism Conference 2026, themed "Advancing Autism Care through Artificial Intelligence and Innovation," scheduled for April 25–28, 2026, at the Abu Dhabi Energy Center, United Arab Emirates. This year, we are excited to offer a hybrid format, allowing both in-person and virtual participation to accommodate a diverse audience.

This prestigious international conference serves as a vital platform for addressing autism spectrum disorder (ASD) as a multifaceted medical, educational, and social challenge. Our goal is to unite experts from various fields to share insights, advance scientific research, and promote solutions centered around six core pillars: Healthcare Excellence, Reimagined Education, Community Integration, Scientific Research, Innovation & AI, and Inclusive Workspaces.

We anticipate a dynamic gathering of leaders and innovators, including researchers, healthcare professionals, educators, technology and AI advocates, policymakers, and families—all dedicated to enhancing the understanding and support of individuals with autism. Participants will have the opportunity to earn 30 CME credits (Continuing Medical Education) for their involvement in this enriching experience.

As the UAE embraces AI and innovation as key components of its national strategy, we recognize the transformative potential of these advancements in autism care. They enable personalized interventions and foster inclusive environments that empower individuals with autism to thrive. In alignment with the UAE's designation of 2026 as the Year of Family, we emphasize the crucial role families play in supporting individuals with autism and are committed to creating a conference experience that honors these essential connections.

The conference will feature an exhibition showcasing cutting-edge technologies and solutions from global experts and startups in the field of autism care. This exhibition presents a unique opportunity for providers to demonstrate their expertise across various domains, including healthcare, education, social inclusion, and workplace integration. Attendees will have the chance to engage with industry leaders and explore groundbreaking innovations that enhance the quality of care and support available.

Participants can look forward to a rich program of scientific sessions, interactive discussions, and impactful visual presentations highlighting the latest evidence-based approaches to autism. Additionally, hands-on workshops led by international experts and a global media campaign will further support children with autism and their families.

We are confident that the Fourth International Autism Conference 2026 will foster meaningful collaboration, inspire innovation, and contribute to improving the quality of care, inclusion, and overall quality of life for individuals with autism across diverse communities. We eagerly anticipate your participation in this transformative event.

Sincerely,

**IV International Autism Conference
